I have known Johnathan in my capacity as Consultant, Organisational Psychologist in the NUS Health and Wellbeing Team under the Office of the President since July 2021. In that time, he worked directly under my supervision as a Social Media, Branding & Communications Assistant.

His role included:

- Support in the execution of branding, communications & outreach strategy

Johnathan quickly demonstrated his ability to learn and internalize quickly. He is extremely efficient and has excellent work ethic. He takes his responsibilities very seriously and often shows initiative by going the extra mile when completing a task.

Johnathan is also able to work well under pressure and has produced consistently high-quality work under tight timelines. He has proven to be an effective problem solver and team player. His competence extends beyond the skills for which he was originally hired, and he is highly regarded by his colleagues and peers.

Specifically, he has gone above and beyond in contributing to both the department's communications and clinical psychology operations. His adaptability and versatility enable him to hold multiple portfolios simultaneously.

Being one of the first few pioneering members of this department, Johnathan has laid a lot of the initial groundwork for the communications strategy and direction for NUS Health and Wellbeing. His ability to stay calm under pressure and deliver quality work despite tight deadlines is unparalleled.

He works well independently and, at the same time, is a highly-valued team player that always steps up to offer help whenever required. He also demonstrates great people management skills, concurrently managing inter-department liaising and also with external stakeholders.
